-
- **Please check in at the JOT desk 10 minutes prior to your start time & have your dancers ready to begin on time!**
 - When you check in we'll tell you where to take your CD, whom to speak with about your cues and your dancers' dressing room for the performance.
 - In scheduling these time slots, we only allow enough time to give notes and set lighting with our tech staff and then your run through.
 - At your tech time, please have a director or choreographer present. Bring or wear the costume used in that piece to assist in proper lighting. This is *only* a brief tech run & we must stay on schedule!
 - Please remember our general lighting capabilities will include a warm wash, cool wash, and limited pre-hung specials. Southern Polytech has limited lighting capabilities but we will make every effort to get the best look possible for your works!
 - Directions to Southern Poly are on our website www.dancefestinc.com
 - Please call Annie Day's cell at 770-842-4483 or the Southern Poly info desk at 678-915-4103 in case of emergency.
